COMPLETE GUN CARE & MAINTENANCE RANGE

BE SURE IN YOUR NEXT SHOT

For many weapon owners the toughest thing is a long, but needed process of cleaning after shooting, which everyone usually feels like postponing. Weapon care is important, but not always difficult task, which shouldn’t take a lot of time and must have good result. The trademark Recoil offers a complete range for weapons of any system and intended use, ensuring fast cleaning, protection and maintenance in just 10-15 minutes of your time.

WE LOVE YOUR GUN
CLEANING YOUR WEAPON

1 Cleans inner and external weapon elements and mechanisms off fouling residues and various contaminants.

2 Chemically and physically removes hard deposits inside a barrel: fouling, copper, lead, tombac, plastics, etc.

3 Neutralizes aggressive resedus on all elements of weapon.

4 Treats clean surfaces by neutral solutions for trouble-free and efficient operation and corrosion prevention.

CARBON REMOVER

CLEANING PRODUCT IN ANY CASE
FOULING AND CARBON DEPOSIT CLEANER

- Thanks to its chemical properties, promptly and without undue effort enables to remove even the most persistent fouling residues and not only from inner surface of barrel.
- Enables to remove old preservation grease.
- Has high pressure ensuring penetration into hard-to-reach places.

400 ml
HAM002
COPPER REMOVER

- Free of ammonia.
- No terrible smell.
- User friendly package.
- Affordable price.

400 ml
HAM009
Bore Cleaning Foam

Minimum Efforts for Maximum Results
BORE CLEANING FOAM

- High density of foam allows it to stay on surface longer.
- Does not leave dense tarry residue after settlement.
- Free of ammonia.
- High pressure ensures filling of any bore diameter.

200 ml | 500 ml
HAM007 | HAM008
CLEANER & DEGREASER

EASY FAST EFFECTIVE
DEGREASER CLEANER

- Within seconds enables you to remove dirt from weapon mechanisms and joints just under field conditions without full dismantling.
- Can be used as degreaser before paint application.
- Does not cause damage to plastic and painted surfaces.
- Instantly removes moisture from any hard-to-reach places.
- Enables to remove old preservation grease.
- Has high pressure ensuring penetration into hard-to-reach places.

500 ml
HAM001
DRY PTFE-BASED LUBRICANT

- Safely coats joints and mechanisms with invisible thin PTFE coating.
- Ensures maximum easy operation of joints and protection.
- Leaves surface absolutely dry.
- Prevents from sticking of various contaminants.
SYNTHETIC GUN OIL

BE SURE IN YOUR NEXT SHOT
SYNTHETIC WEAPON LUBRICANT

- 100% synthetic.
- Non-combustible – without blanketing smoke during the first shot.
- Non-freezable – does not thicken at temperature drop.
- Has high penetrating properties.
- Has neutral alkaline and acid PH environment.
- Can be used as preservation product, prevents and protects from corrosion.
- Has good smell.

200 ml  HAM004

400 ml  HAM005
PATCHES

High quality

- Special material facilitates penetration of greasing and cleaning agents.
- Carefully and efficiently removes residue contamination.
- High quality.
- Produced and packed in Ukraine.
- Affordable price.
